## DECREES

### Art. 1

#### *Number of research grants*

**Within the framework of the under the project PNRR - Missione 4 "Istruzione e Ricerca" - Componente C2 Investimento 1.1 "Fondo per il Programma Nazionale di Ricerca e Progetti di Rilevante Interesse Nazionale (PRIN), a public selection procedure, based on qualifications and interviews, is called for the awarding of 1 "senior grant" for the performance of research activities (hereinafter referred to as research grant) at the University of Modena and Reggio Emilia in the research site specified below.**

**This kind of research grant is reserved towards persons with a particular scientific qualification and significant and documented experiences into the research's field (apprenticeship and internship are excluded) demonstrated by participation in publications of results or achievement of patents.**

The Administration ensures equal rights and opportunities between men and women for the assignment of the grant in question.

### Art. 2

*Location, subject area, research title, general aims of research, tutor, interview programme and title subjects*

#### **LOCATION: Modena (ITALY)**

LOCATION	Disciplines and/or academic disciplines in which the candidate's qualifications must specifically refer	TUTOR
----------	---	-------

Department of Law	IUS/08 (Constitutional law)	Professor Luca VESPIGNANI
-------------------	-----------------------------	---------------------------

The aims and title of the research, the interview programme and the subjects of the qualifications of the selective procedure for the attribution of the above research grant are the following:

#### Title of research:

Water in energy production, between private economic initiative and environmental protection: constitutionalist profiles, within the framework of the project "PNRR - Missione 4 "Istruzione e Ricerca" - Componente C2 Investimento 1.1 "Fondo per il Programma Nazionale di Ricerca e Progetti di Rilevante Interesse Nazionale (PRIN)" "Incentivizing water efficiency in industrial energy production systems: legal and engineering profiles", project code 2022TSYM3T (CUP E53D23006930006).

#### Aims of research:

The main purpose of the project is to find the constitutional framework of the Issue of water use within energy production processes, also in consideration of the recent reform that has introduced a further explicit reference to the environment in articles 9 and 41 of the Constitution, after the one already inserted in art. 117 with the revision of Title V made in 2001. In particular, according to the new formulation of art. 41 of the Constitution, public and private economic initiative must also be directed and coordinated for environmental purposes, in a direction of increasingly sustainable development and respectful of the so-called rights of future generations. Having said this, the subject will reconstruct the regulatory framework at national and supranational level, given that - despite the approval of the Environmental Code (Legislative Decree no. 152 of April 3, 2006 and subsequent amendments) - there is still a great deal of uncertainty regarding the legal framework of the environment in which, in a multi-level system, different territorial levels are involved, both with regard to the general theme of environmental protection, and with regard to the more specific profile, on which attention will be focused, of the regulation of energy production, as is known, attributed to the concurrent legislation of the State and the Regions by the third paragraph of art. 117 of the Constitution ("production, transport and national distribution of energy"). This discussion will be completed with a reconstruction of the relevant constitutional case law.

#### Interview program:

Constitutionalist fundamentals of the legislation underlying water management in industrial processes with particular reference to Articles 9, 41, 53, 117 of the Constitution.

#### Art.3

##### *Duration, renewal and amount of the research grant*

(The total duration of) the relationship that has been established is for a term pursuant to the laws and regulations in force, including any renewals, may not exceed six years, excluding the period in which the grant was assigned simultaneously with a PhD, within the limit of the legal duration of the relative course.

### *Awarding of research grants*

The winner of this selective procedure establishes a self-employed work relationship according to private law. Such relationship is not part of the institutional configuration of university professorship and the role of university researcher and is not therefore useful for purposes of employment in the personnel roles of Italian universities and university institutes.

The University, within its discretion, reserves the right not to proceed with the awarding of the grant and upon signing the relative contract.

If the winner of this procedure, even for facts not attributable in any case to him, is unable to take up service in time to ensure the conclusion of the activities by the deadline of the research project, the University itself reserves the right not to proceed with the signing of the relative contract, except for any exceptions to the expiry of the project or the possibility of an agreement between the parties to reshape the duration of the contract, which cannot be less than the minimum limit of 6 months determined by the regulatory change introduced by art. 19 of law no. 120 of Sept. 11<sup>th</sup> 2020, and the relative remuneration.

The University is exempt from any liability if, following the signing of the contract with the winner coming from a non-EU country subject to a financial embargo in accordance with current EU provisions, the payment of the grant is slowed down or it is not possible to proceed with the payment due to the financial sanctions provided for individuals/organizations and/or countries.

The winner will be invited, pursuant to the provisions of art. 46 of Presidential Decree n. 445/2000, to self-certify the following conditions, facts and personal qualities:

- 1) birth certificate;
- 2) enjoyment of political rights; foreign nationals shall self-certify that they enjoy civil and political rights in the country to which they belong or from which they originate;
- 3) his/her nationality;
- 4) that he/she has never received criminal sentences; otherwise, the winners shall self-certify the sentences passed, the date the sentence was passed and the judicial authority that passed the sentence (including in the case of any amnesties, legal pardons, remissions, non-registration benefits, etc., and of nothing being shown in the criminal office registrations). Criminal proceedings must be indicated whatever their nature. Foreign nationals shall further self-certify that they have received criminal sentences in the country of which they are nationals or in Italy;
- 5) possession and number of "Fiscal Code" (Italian Social Security Number);
- 6) all details of which the party involved is aware contained in the public records office registers.

The conditions, facts and personal qualities self-certified by the winner of this selective procedure shall be submitted, by the University of Study of Modena and Reggio Emilia to suitable checks, including random checks, as to their truthfulness.

With each winner of this selective procedure will be stipulated contract of self-employment that will be signed by the winner and the Manager of the "Direzione Organizzazione, Programmazione e Gestione Risorse Umane".

In the case of a non-EU winner, the signing of the contract is also conditioned by the conclusion and verification of the preliminary obligations aimed at obtaining the residence permit.

The winner of this selective procedure shall comply with the provisions of the University Regulations for the awarding of grants to carry out research, and especially the provisions of articles 8, 10, 11, 12, 13, 14 and 15 of such Regulations.

A copy of these Regulations is available on the Website of the University of Study of Modena and Reggio Emilia, at [www.unimore.it](http://www.unimore.it) and at [www.ufficio.selezioneassunzione.unimore.it](http://www.ufficio.selezioneassunzione.unimore.it)

Candidates who, within the term established by the Administration, fail to declare their acceptance of such term or who do not take up service within the established term shall no longer be eligible for grants to carry out research.

Delays can only be justified that have been caused by serious occurrences such as health problems or duly proven *force majeure*. Any postponement of the starting date or interruption of the period of usufruct of the grant shall be allowed with respect to the winners who provide proof of having pregnancy or confinement in accordance with applicable regulations.

The prescribed procedure for the cancellation of the relationship is begun against grant holders who, after starting scheduled research activities, fail to continue these in a regular and continuative manner without justified reason, for the entire duration of the grant, or who are responsible for serious and repeated offences.

The grant holder must present, yearly, to the Council of the Centre where cooperation is provided a detailed report

on the research activities performed. This report must be approved by the tutor and Centre Director.

### Exemplary simplified procedure for administrative certifications and substitute declaration in place of the sworn statement

Italian candidates and European Union citizens can demonstrate possession of qualifications by making a substitute declaration in place of the sworn statement pursuant to art. 47 of the Presidential Decree ('DPR') of 28 December 2000 n. 445, or by making use of the simplified procedure for administrative certifications permitted by art 46 of the Presidential Decree ('DPR') of 28 December 2000 n. 445.

Under Article 15 of the Law of 12 November 2011, n. 183, it is stated that certifications issued by public offices in relation to status, personal qualities and facts are valid and may only be used in relations between private individuals. In relations with organs of public offices and managers of public services, the certificates and sworn statements are always replaced by the declarations referred to in articles 46 and 47.

Public offices and managers of public services are required to obtain as a matter of procedure the information which is the object of the signed declarations referred to in articles 46 and 47, as well as all data and documentation held by public offices, following indication by the individual concerned of the elements necessary for retrieval of the information and the details requested, or they may accept the signed declaration produced by the individual.
