Art. 11

Awarding of research grants

Each successful applicant in this selection procedure establishes an independent employment relationship under private law. This relationship does not form part of the institutional configuration of university professors and the role of university researchers and therefore cannot have any useful effect for the purposes of recruitment to the staff rosters of Italian universities and university institutes.

As part of its discretionary power, the University reserves the right not to proceed with the awarding of the grant

and the signing of the relevant contract.

In the event that the winner of this procedure, even for reasons not attributable to him or her, is unable to take up employment in sufficient time to ensure the completion of the activities by the deadline of the research project, the University has the right not to proceed with the awarding of the grant and the signing of the relative contract, save for any exceptions to the deadline of the project or the possibility of an agreement between the parties to reschedule the duration of the contract, which may not be less than the minimum limit of 6 months determined by the regulatory amendment introduced by art. 19 of Law No. 120 of 11.9.2020, and the relevant remuneration.

The University is exempt from any liability if, after the contract has been signed with the winner of the procedure coming from a non-EU country subject to a financial embargo in accordance with the Community provisions in force, the payment of the fees is delayed or it is not possible to proceed with the payment of the fees due to the financial sanctions provided for individual persons/organisations and/or countries.

The taking up of employment is subject to verification of compliance with the quota of at least 40 per cent of staff employed on fixed-term contracts being female.

The winner will be invited, pursuant to the provisions of Article 46 of Presidential Decree No. 445/2000, to self-certify the following conditions, facts and personal qualities:

- 1) birth certificate;
- 2) enjoyment of political rights; foreign citizens must self-certify the enjoyment of civil and political rights also in the country of their nationality or origin;
- 3) citizenship;
- 4) that they have not been convicted of any criminal offence and that you are not currently involved in any criminal proceedings; if they have not been convicted, the winner shall self-certify the convictions received, even if not final, the date of the sentence and the judicial authority that issued it (they should also indicate whether they have been granted an amnesty, judicial pardon, pardon, pardon, etc., and also whether there are no entries in the criminal record). Criminal proceedings, including pending ones, must be indicated, whatever their nature. Foreign citizens must also self-certify that they have not been convicted of any criminal offences in their country of nationality or in Italy;
- 5) tax code number;
- 6) all data to the direct knowledge of the person concerned contained in civil status registers.

The conditions, facts and personal qualities self-certified by the winner of this selection procedure shall be subject to appropriate checks, including random checks, by the University of Modena and Reggio Emilia as to their truthfulness.

With each winner of this selective procedure will be stipulated contract of self-employment that will be signed by the winner and the Manager of the "Direzione Organizzazione, Programmazione e Gestione Risorse Umane".

In the case of a non-EU winner, the signing of the contract is also conditional on the conclusion and verification of the preliminary formalities for obtaining a residence permit.

The winner of this selection procedure shall comply with the requirements set out in the University Regulations for the awarding of grants for research activities and, in particular, with Articles 8, 10, 11, 12, 13, 14 and 15 thereof.

In view of the current international health emergency, take-up may be affected by the current restrictions on the containment and prevention of epidemiological emergence from COVID-19.

A copy of the Regulations is available on the University of Modena and Reggio Emilia's INTERNET site at the following addresses: www.ufficioselezioneassunzione.unimore.it

Those who do not declare their acceptance of the research grant or do not take up their duties within the deadline set by the Administration shall forfeit their right to the research grant.

Only delays due to serious health reasons or duly substantiated cases of force majeure can be justified. Any postponement of the starting date or interruption of the allowance period will be allowed for winners who can prove that they are in the conditions of pregnancy or childbirth provided for by the regulations in force.

Any grant-holder who, after commencing the planned research activity, fails to continue it, without justified reason, regularly and uninterruptedly, for the entire duration of the grant, or who is guilty of serious and repeated misconduct, shall be subject to the prescribed procedure for declaring termination of the relationship.

The grant holder is required to submit an annual detailed report on the research activity carried out to the Council of the Department where the collaboration takes place, endorsed by the tutor and the Director of the Department.

Attachment 1

Exemplary simplified procedure for administrative certifications and substitute declaration in place of the sworn statement

Italian candidates and European Union citizens can demonstrate possession of qualifications by making a substitute declaration in place of the sworn statement pursuant to art. 47 of the Presidential Decree ('DPR') of 28 December 2000 n. 445, or by making use of the simplified procedure for administrative certifications permitted by art 46 of the Presidential Decree ('DPR') of 28 December 2000 n. 445.

Under Article 15 of the Law of 12 November 2011, n. 183, it is stated that certifications issued by public offices in relation to status, personal qualities and facts are valid and may only be used in relations between private individuals. In relations with organs of public offices and managers of public services, the certificates and sworn statements are always replaced by the declarations referred to in articles 46 and 47.

Public offices and managers of public services are required to obtain as a matter of procedure the information which is the object of the signed declarations referred to in articles 46 and 47, as well as all data and documentation held by public offices, following indication by the individual concerned of the elements necessary for retrieval of the information and the details requested, or they may accept the signed declaration produced by the individual.

It must also be remembered that the Administration is called upon to perform suitable checks as regards the truthfulness of the substitutive declarations received and that, besides the interested party no longer being eligible for any benefits obtained on the basis of the untruthful declaration, criminal sanctions are also applicable in cases of falsification of documents and untruthful declarations.
